

“Eventually, poor planning will lead to unpleasant surprises...”

Alaska's long-term financial security is seriously at risk. For six of the last nine years, Alaska has overspent its income. And in the current fiscal year alone, the state budget is out of balance by over a half *billion* dollars.

Alaska badly needs a long-term financial plan. Contact your elected representatives today and ask them to establish a financial plan now.

You can send a public opinion message (POM) to legislators at no charge - just use the appropriate phone numbers below.
